[WWW.ALROWAISHED.COM](http://WWW.ALROWAISHED.COM)

In the name of Allah Almighty

## About us •

---

Al-Rowaished legal Consultants and Lawyers provides many legal services of various types through innovative means and methods that take into consideration the needs of clients, with the help of an elite and distinguished team that practices pleading and litigation before courts, and in front of local and international bodies, and specialized judicial committees. It also provides legal advice and smart solutions to help individuals and institutions to meet their challenges and serve them at the best level of quality professionalism and confidentiality,

Consequently, the firm has earned the confidence and appreciation of governmental agencies and major private sector entities as a result of having a solid history of taking care of clients in accordance with the principles of justice and professionalism, putting the satisfaction of its clients as its top priority.

# Our Services

## Family Entities

We are happy to provide legal services related to the family entities by supporting them in planning, setting up and structuring their investments or to maintain the continuity of their wealth in the way that qualifies them to raise its efficiency rate ,and reduce the possibility of disputes in family businesses.

### Reconciliation

When a conflict arises - May Allah forbid - reconciliation efforts will be carried out by our teamwork using the latest methods that lead to resolving disputes by an alternative way avoiding our clients from resorting to litigation..

## Family Business Governance

Our team includes an elite group of consultants and lawyers from broad international and regional backgrounds in all aspects of governance, and who are familiar with the best standards to be applied through a precise arrangement of strategic mechanisms and executive performance within the facility according to advanced practices based on values of Justice through the principles of disclosure, transparency, accountability and responsibility.

## Family Constitution

We work on drafting family constitution through best practices and international models of family constitutions based on the vision, mission, and values of the relevant family to enable those who concerned to understand the family statute and define the rights and obligations of members and the powers of individuals within this statute, taking into consideration the cultural and social nature of the family.

## Inheritance, Wills and Endowments

The science of inheritance, wills, and endowments is considered to be a very complicated science that requires seeking the assistance of specialists and experienced experts to understand and comprehend its details. Therefore, our team was keen to work with high professionalism in this type of science to provide the best possible solutions so as to satisfy customer needs.

- The procedures for dividing and guarding Estates, liquidation of properties, and preventing abuses thereof.
- Presenting the opportunities for developing the legacy assets of our clients, in alliance with investment, accounting and marketing companies.
- Drafting wills in accordance with the provisions of Islamic jurisprudence and register them to the official authorities for ensuring their notarization.
- Comprehensive care of endowments according to a vision based on the governance of endowments with the aim of their growth and development.

## ➤ Real Estates Sector

Our team is characterized by its perfect knowledge as well as optimal application of the strategies that ensure achieving financial growth and stability of the real estate sector, through profound awareness of regulations and legalizations related to this sector.
